### Allergen Statement

Unless otherwise stated in the table above, the products supplied are to the best of our knowledge free from nut, nut derivatives and allergens. The Company does handle some nut and allergen products but follows careful handling and segregation procedures. However, due to the nature of the supply chain, it is impossible for the Company to absolutely guarantee that no cross contamination has taken place, at some point prior to delivery to our premises.

### Packaging and labelling

This product is packed in food grade polyethylene bags, typically labelled with product name, botanical name, best before end, batch number, weight, country of origin.

### Storage

Store in cool dry conditions, on pallets, out of direct sunlight, and free from infestation and ingress of moisture.

### Typical shelf life

At least 12 months if stored unopened and in accordance with the storage conditions shown above. Please refer to the Best Before End date for the specific batch purchased

### SDS/MSDS Statement

This product is a natural raw material and is not subject to the provisions of REACH regulation. As such, no specific handling, storage, or disposal procedures are required. Standard good manufacturing and hygiene practices are sufficient for the safe use and management of this product.

### GMO Statement

As per legislation (EG) No. 1829/2003 and (EG) No. 1830/2003, to the best of our knowledge this product is neither genetically modified nor had it been produced using genetically modified organisms.

**Non-Irradiation**

To the best of our knowledge, the product neither is irradiated, nor treated with ethylene oxide or methyl bromide.

**Further Information**

None

**Health and Safety Advice**

None

**Disclaimer**

Natural product supplied may contain matter which is not in accordance with the specification. Up to 5% of the weight ordered may be made up of matter different to that specified. Nothing contained herein shall be construed to imply any warranty or guarantee as to its suitability for the Customers intended use. Customers must ensure they carry out any additional checks as applicable to their application of the product. The customer is solely responsible for compliance with any regulations relating to the onward sale of this ingredient or suitability for any intended use. The specific information contained on the Certificate of Analysis will always supercede any information contained in this specification.
